PROGRAMMING YOUR REMOTE

First, determine the model of your Set Top Box (STB) - There is a sticker located on the bottom of the STB

I. *Pair your remote to your STB* (Follow these steps if you have an AMINO, ADB or KAMAI box)

1) Press the **STB** button to choose the STB function.

2) Press and hold **SETUP** and the number **1** (if you have an AMINO) **6** (if you have an ADB) **7** (if you have a KAMAI) at the same time until the STB key blinks twice. Once the STB button blinks twice it means the programming was successful.

I. *Pair your remote to your STB* (Follow these steps if you have an IS-5112W box)

1) Press the **STB** button to choose the STB function.

2) Press and hold **SETUP** until STB button blinks twice. Once the STB button blinks twice, enter the code **1-3-7-6**

3) Press the **SETUP** button to lock in the code.

II. *Programming your remote to be used with your Television*

1) Make sure your TV is ON.

2) Press the **TV** button, it will blink once.

3) Press and hold **SETUP**, the TV button will blink twice.

4) Press **9-9-1**, the TV key will blink once.

5) Press and release the **CH+** key continuously, then stop when the TV turns off.

6) Press **SETUP** to save the code.

III. *Programming the Master Power Control Feature*

This eliminates the need to press the STB and TV buttons when turning on the TV.

1) Make sure your TV is ON.

2) Press the **STB** button.

3) Press and hold **SETUP** until the STB key blinks twice.

4) Press **9-9-5**, the STB key should blink twice.

5) Press the buttons in the following order; **POWER**, **TV**, **STB**

6) Press and hold **SETUP**, release when the STB button blinks twice.

PROGRAMMING YOUR BIG BUTTON REMOTE

First, determine the model of your Set Top Box (STB) - There is a sticker located on the bottom of the STB

I. *Quick Setup*

1) Hold the **STB** button for 5 seconds (it'll blink once) and continue to hold the STB button while you press the **QUICK SETUP** digit for the device. Release both buttons, the STB button should blink twice ton confirm code is stored.

II. *Code Entry*

1) Hold the **STB** button and **OK/SEL** button until the STB button stays lit. Enter in the **3 Digit Code** (listed below), then press the **STB** button again. The STB button should blink twice to confirm the code is stored.

III. *3 Digit Codes*

- Legacy Amino Code **2-5-6**

- ADB Code **2-5-9**

- IS-5112W **0-0-1** or **QUICK SETUP** digit **2**

- Entone/Amino **2-2-1** *(Requires newer remote firmware. Remotes with support will have a serial number GREATER than M6591216 0050001.)*

PROGRAMMING YOUR ROYAL REMOTE

I. *Programming*

1) Hold **SET UP** plus the corresponding colored **HOTKEY** (listed below) until the **CABLE POWER** button blinks twice.

- Yellow (A) - Legacy Amino

- Blue (B) - IS-5112W

- Red (C) - ADB

- Green (D) - Entone/Amino
